

LABEL DESIGN AND  
PRINTING SOFTWARE

# LabelShop® ULTRA & PRO

**LabelShop Highlights:**

- **The In-House Printing Solution**  
LabelShop is the ideal software for printing labels, tickets and tags in-house.
- **Superior User Interface**  
Combines powerful functions with ease-of-use. Outstanding Multi-lingual support with screen prompts in 14 languages.
- **ODBC Support**  
Connect to your existing corporate databases.
- **TrueType™ Font Support**  
Any Windows™ TrueType font may be used for maximum flexibility.
- **Graphic Flexibility**  
Incorporates various formats, and can scale, rotate and mirror your graphics.
- **Colour Support**  
Add colour to your printed labels.
- **Powerful Label Printing Solutions**  
Use LabelShop PRO for label printing solutions in all environments. Develop command files for use in host systems or store in the printer.
- **ActiveX® Support**  
Use LabelShop PRO in integrated solutions with third party Windows applications.
- **Code Converter**  
Import your existing label formats and printer command language files from several printer manufacturers.
- **Supports Windows 95/98, NT 4.0 and 2000.**

LabelShop is the ideal software for your in-house printing. No need to order small or medium quantity labels, tickets or tags. Print them in-house instead! LabelShop lets you do it easily and quickly. You will get exactly the quantity you need, just when you need them, and at a low cost, too. Just the way you like.

The LabelShop program runs under Microsoft Windows and is available in these versions:

**LabelShop ULTRA**  
**LabelShop PRO**

LabelShop uses EasyCoder and ColorCoder printers for maximum speed and high quality labels with bar codes, text and graphics.

LabelShop has superior graphic user interface that offers maximum operator efficiency. It combines powerful functions with ease-of-use.

In order to provide maximum flexibility, you are free to use the

printer resident fonts, or any Windows TrueType font, when designing your label.

LabelShop is made to incorporate various graphic formats and includes such features as scaling to desired size, rotation, mirror view or adjustment of brightness.

LabelShop PRO is not only a label printing software, but a powerful tool in label printing solutions. Develop command files for use in host systems or store them in the printer for simple printing from host. As LabelShop PRO is ActiveX® compliant, it may be integrated in third party Windows applications.

Use the Printer Output files to generate files to embed in your ERP system or the optional ERPLabel packages available for several standard ERP systems.

# LabelShop® ULTRA & PRO

## Printers

- Choice of Intermec EasyCoder™ printer
- Choice of Windows™ printer
- Local printing
- Network Printing or Peer-to-Peer printing through Port Monitor

## Labels

- Format, height and width, angle radius.
- Spacing, labels across and down
- Settings
- Zoom
- Non-printable fields

## Bar Codes

- Accepts most linear and 2D bar code symbologies, including Code 39, Code 93, Code 128, 2/5, EAN-8, EAN-13, UCC/EAN-128, Codabar, UPC, DUN-14/16, 2/5 Interleaved, Plessey, Postnet, PDF417, MaxiCode, Datamatrix, Codablock A/F, QR Code, MicroPDF, RSS, Composite
- Supports most printer resident bar codes
- Graphical bar codes for Windows printers
- Variable ratio, bar width/height
- Rotation
- Counter and date
- Imported fields
- Combined variable fields

## Text

- Access to internal printer and Windows fonts. Downloadable, bitmapped or scaleable TrueType fonts (selected printer models)
- Alignment, line spacing, rotation
- Counter and date; customizable format
- Imported fields
- Combined variable fields
- Text box with automatic line feed
- Support for use of multiple font subsets for printing non-latin fonts
- Symbol font for printing standard label symbols e.g. dangerous goods, electrical, approvals.

## Graphics

- Import of graphics in various file formats including: BMP, PCX, TIF, EPS, Clipboard, JPEG, WMF, DXF, PNG, TGA etc.
- Positioning, sizing and rotation
- Vertical or horizontal mirror effects
- Graphics as variable fields

## Lines and Boxes

- Positioning and sizing
- Proportional modifications

## Color Support

- Text, lines, boxes in fixed colors
- Variable color objects (ColorCoder V4 only)

## Thermal Printer Drivers

High performance dedicated drivers for all Intermec EasyCoder printers, providing full control of printer and accessories. Print output to serial, parallel, network ports, or to file. Store layouts/graphics in printer.

## Options

- Positioning grid
- Language selection in 14 languages: English, Spanish, French, Italian, German, Portuguese, Dutch, Hungarian, Czech, Polish, Swedish, Finnish, Norwegian, and Danish.
- Euro conversion
- Password protection
- UCC/EAN-128 Wizard
- Tracking report (PRO)

## Database & Import Features

### ODBC database import

- Import data from existing ODBC database
- Sort on multiple fields
- Multi-level selection of data before printing
- Save Query (PRO)
- Multiple tables (PRO)
- Join tables (PRO)

### ASCII file import

- Delimited ASCII, extended ASCII, ANSI.
- Visualization mode that allows full editing, viewing and printing of multiple fields and multiple labels.

### Imported fields

- Graphics
- Text
- Bar codes
- Label name
- Quantity to print

### Database Point-and-Click Selection

- Easy interface for searching and printing database records.
- Print one copy of one record or various quantities of multiple records for batch printing

## Database Manager

The 32 bit Database Manager is LabelShop's integrated database management system, open to the most frequently used database formats. Functions include:

### Database

- Creation
- Choice of format: Access™, Dbase™ or Paradox™

## Table

- Creation, opening, closing, deleting
- Structure modification

## Record

- Quick access to data
- Research
- Modification
- Sort/Add
- Copy record
- Copy field
- Multi Level selection of records before printing

## Code Converter

Imports label files from competitive software and incorporates them into LabelShop. It converts raw printer code into an editable LabelShop label file. Import from Zebra™, Eltron™, TEC™, Datamax™, Avery™, Sato™, Monarch™, Printronix™ etc.

## ActiveX Support (PRO)

LabelShop PRO is ActiveX compliant, which enables integration in third party solutions.

## Printer Object Files (PRO)

Creates label command language fields for use in non-Windows environments. Output is customizable to suit various environments. Created files can be distributed without additional license fees.

## Help

On-line context sensitive help in English, French, Spanish, Italian, and German

## System Requirements

- Windows 95, 98, NT 4.0 or 2000.
- Windows NT 4.0, 2000, Bayan Vines or Novell Server (Net version)
- Hard disk with minimum 35 MB free
- CD drive
- Paralell port
- Mouse

## Product Details

- **ULTRA:**
  - Single User
  - English, French, Spanish, Italian, German manual
- **PRO:**
  - Single User
  - Runtime: printouts only – no design
  - Network: 5, 10, 20, 50 users
  - English, French, Spanish, Italian or German manual
